"Cory Luetjen & the Traveling Blues Band have built a bridge for many music genres; a place where traditional and contemporary music can unite. Southern to the core, this Party Time Outfit seems to strike an ancestral nerve with every audience East, West, North and South."

"Hard hitting, well written lyrics with captivating rhythm & grooves. That's what you get when you push play on a Cory Luetjen & The Traveling Blues Band album"

Chris Rhoulac - WQFS 90.9 fm  
Guilford College Radio

"Hearing and listening to Cory Luetjen and the Traveling Blues Band is so refreshing. The sound is a wonderful combination of traditional and contemporary written songs. First time listening I thought most songs were written by a master Chicago bluesman. A unique sound with first class production won me over. Just like the mailman..rain, sleet, snow or sunshine. Cory Luetjen & the Traveling Blues Band will deliver.."
